## STUDIES

Montserrat MIRÓ i M. Lluïsa FORRELLAT, *The Capbreu of the Manorial Lords of Sabadell* (S. XIV). A capbreu is a document comprising the testimony of those who managed lands, houses or other properties through hereditary lease contracts with a feudal lord were obliged to make. In this article the authors analyse the so-called «capbreu of the manorial lords of Sabadell», and provide a global vision of the town and environs at the end of the fourteenth century.

María del Mar DOMINGO HERNÁNDEZ, *The Limited Response of Sabadell Society towards Cheap Housing Legislation (1911-1936): A Comparison with Terrassa and Two Basque Localities: Barakaldo and Portugalete*. As the title indicates, the author demonstrates the different reactions of four geographically diverse towns, two in Catalonia, and two in the Basque Country, to similar social legislation for the construction of the so-called «cheap houses» in the period 1911-1936.

Josep ABAD, *The Local Federation of Unions of Sabadell (FSL). The position of the FSL faced with both Catalanism and the rise of fascism in Europe*. In this study the influence of the progress of fascism in Europe from 1932-1934 is analysed, in relation to the theory and praxis of the powerful FLS. At the same time an analysis is undertaken of how to interpret this phenomenon and which forces, both social and political, can be qualified as fascist.

On the other hand, the position which the FLS adopted faced with the fact of Catalan nationalism is observed and how the abandonment of anarchism and the evolution towards marxism would affect the incorporation of the nationalist question, together with the social question, into their body of doctrine.

Virginia DOMÍNGUEZ ÁLVAREZ, *Female Homeworking at the Clothing Industry of Sabadell during the XXth Century*. The article deals with the importance of homeworking in the clothing industry in Sabadell, which represented a working option for lots of women in Sabadell. It presents some myths of homeworking as the long day-working and the isolation of being always at home. The paper also points out that factories were the most benefited by this localization of work.

## DOCUMENTS

Joan COMASÒLIVAS I FONT, *Unedited Proceedings of the University of Sabadell, Town and Environs 1412-1450*. In 1948 the transcript of the first book of proceedings from the municipal government of Sabadell beginning in 1449, was published. Following a further discovery by the archivist Lluïsa Cases i Loscos, in 1993, at the Sabadell Historical Archive, the author presents the transcript completing the proceedings of the 1948 volume, and of various others from 1412-1414 which constitute, for the moment, the oldest in the municipality.
